Fall Planting Time - 1944

Dear Friend:

From the hardy forests of Maine to you comes Nature's most glorious gift!

Discover NOW how little it costs to beautify your home with Guaranteed-to-Live Maine Evergreens - priced as low as 10¢ each!

My Living Trees are thorobreds in every way but they have no luxury price tag. For over 20 years I have been growing Living Trees and shipping them to folks all over the country. Economical and easy to plant, my GUARANTEED-TO-LIVE Trees bring greater beauty and protection to your home, garden and grounds.

Nowhere will you find a better, lifelong investment. And what will bring you half as much fun and enjoyment as planting my Trees this Fall and watching them burst into quick, healthy growth next Spring?

There's something priceless about a home that has been enriched by selected, strong-rooted Evergreens. Folks plant my Trees for use as wind-breaks, as ornamental door and house decorations, and as protective hedges and boundary markers.

## My Trees Must Live!

The secret of the unusual hardiness and fast growth of my Trees is due to the vigorous Maine climate which weeds out all but the hardiest of Trees. After I have selected the strongest and healthiest of my Trees, I transplant every tree at least once to further strengthen their roots. These sturdy, extra-hardy Trees are the ones I send you! Each Tree is GUARANTEED TO LIVE!

The hundreds of encouraging letters which folks send to me is a living record of the success my customers have with my Living Trees. They're mighty proud of the way their Trees are growing. Some of my customers have planted thousands of my Trees without ever losing a single one!

## Plant My Evergreens This Fall

Though Spring has gone by, that doesn't mean you need wait 'til next year to plant your Trees. You gain most by Fall Planting! By planting in the Fall, your Trees will be already in the ground, ready to wake into fast-growing life at the first sign of Spring in your section.
